Hi Leena:

Sorry for the delay in responding to your prior email. I have attached the index that you requested. As far as the current owner is concerned, the contact information is as follows:

Kathryn Kilgore
Director Asset Management
Industrial Income Trust
301 Route 17 North, Suite 406
Rutherford, NJ 07070
Tel: (404) 895-9255 (office)
Email: Kkilgore@industrialincome.com

In response to your other request, we have confirmed that we do not have any more detailed information regarding the geotextile fabric other than what was previously provided to you.

Can you please advise us as to when we can expect to receive the data and information that we requested from EPA? Do you know when the data from the river will be available? Finally, can you provide an estimate of when we can expect to see a revised QAPP? We appreciate any information that you can provide. Please let us know if you have any questions. Thank you.

Regards,

Adam

Hi Adam,

I took a quick look at the dioxin cell .pdf file regarding the waste cell and believe it may be something we already have seen. This graphic describes the cell as having a non-woven geotextile fabric. If it is available, we are looking for more specifics regarding the fabric itself: manufacturer, source, type, and other information you can provide. If you can't obtain this information, please let me know.

In the meantime, as we discussed, I look forward to receiving the information on the current owner of the former Givaudan property and an index of the documents on the CD.

Thanks, Leena
